Anna Bucciarelli is a professional illustrator, primarily known for her designs of Canada's most stunning collectible coins, treasured for their rarity and craftsmanship. You may have also seen her art on Starbucks holiday cups, Jaguar car ads, and colorful murals on the streets of Toronto. Anna's unique style is influenced by her training in classic Ukrainian folk art called Petrykivka, focusing on intricate floral and plant motifs. She brings together various forms of traditional media, such as ink and watercolor, and introduces digital elements that bring delicate, exquisite detail to her designs.
